

## NANOINNOVATION Workshop on CH

Session 1 Diagnostics and nanotechnologies for Cultural Heritage

*Roma, venerdì 14 giugno ore 9:00 -10:30*

Roberta Fantoni “ADAMO project within DTC focused on analysis, diagnostics and e monitoring cultural heritage”

Laura Bertani, Luisa Caneve, Rosaria D'Amato, Valeria Spizzichino “Nanocomposites effect on laser ablation rate of treated marble samples”

Claudia Pelosi, Giorgia Agresti, Luca Lanteri, Franca Persia, Giuseppe Bonifazi, Silvia Serranti, Giuseppe Capobianco “Surface protection of the Sperone tuff of Villa Mondragone by nanostructured materials in the framework of ADAMO project”

Ulderico Santamaria, Giorgia Agresti, Claudia Pelosi “Experimental tests for evaluating the effectiveness of essential oil mixtures for the removal of the biological patina at the Balneum of Villa San Giovanni in Tuscia (Viterbo)”

Macagnano, A.; Zampetti, E.; Papa, P.; Bearzotti, A.; Avossa, J.; De Cesare, F. “Hybrid devices based on nanostructured sensors for gas and VOCs monitoring”

Javier Becerra, Ana P. Zaderenko, Rocío Ortiz, Pilar Ortiz “New nanomaterials for the conservation of historic limestone buildings” (in video-conference)
